## **RIBO LEVEL ONE ONLINE**

Every exam will have a 10 mark case study, You will be asked a mixture of property and auto questions and each question is normally worth one mark. Your answers need to be clear and concise. Typically a yes or no answer will suffice unless there is a special limit or a condition that applies then that needs to be included.

Complete all the case study questions and submit them below. We will mark them and provide feedback within 24 hours.

Good luck and remember to read the questions carefully and use proper terminology.
